**STUDENT'S FEEDBACK ON**

**TEACHING LEARNING PROCESS & COLLEGE INFRASTRUCTURE**

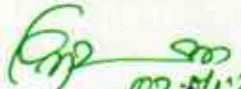

**ACADEMIC YEAR - 2018-19**

**Analysis** - Feedback was collected from 438 Students from 13 departments. The feedback contains questionnaire on teaching Learning process having 12 points and on college Infrastructure having 17 points. The response on this feedback form consists of 5 points as (1) Strongly Disagree, (2) Disagree, (3) Satisfactory, (4) Agree, (5) Strongly Agree. The overall institutional performance is measured by the students' response as 95% students agree with performance of the institute where 2% remains undecided on this topic. The issues behind their satisfaction are mainly guidance of teachers, participation and discussion in class, encouragement for ethical values, linkage of subject to the real life, and cover of syllabus in time and periodical assessment. However, a demand has come from science based students to implement based learning. Student's response on the infrastructure lacks some areas such as internet facility, medical facility and sports facility.

**Action Taken** - Feedback committee has conveyed the analysis of the feedback to the principal through IQAC. Meeting with the principal takes up the following steps.

- 1- To purchase more books in Science Departments
- 2- Focus on activity based learning.
- 3- The college will take step with the approval of Governing Body for providing internal facility and sports facility.
- 4- Grievances/ problems are to be redressed well in time.

**ALUMNI FEEDBACK**

**ACADEMIC YEAR - 2018-19**

**Analysis** - Feedback has collected from Alumni in the year 2018-19 reveals a positive opinion on the course structure. They are satisfied with the learning value of course and highly satisfied with the course outcome. They seem to be satisfied with availability of reading material and suggest for internet facility. The college can rethink on online material.

**Action Taken** - On the analysis of the feedback collected from Alumni it was placed before the authority. Due importance is given to the opinion of Alumni and the college agrees to take steps to facilitate online material and focus on internet facility to the students.

**PARENT'S FEEDBACK**  
**ACADEMIC YEAR - 2018-19**

**Analysis** - Feedback was collected from parents on four points as to the progress of their ward and it was placed before the principal for analysis. On examination of the feedback it is found that 80% parents are satisfied with the progress of their ward. They are much satisfied with the care of teachers and their efforts for developing standard of students. But they suggest for strict attendance of students.

**Action Taken** - Taking into account the opinion of parents it is decided that monthly percentage of attendance will be published in the Notice Board. Students attending below 75% will be informed to their parents. If the shortfall of attendance continues for four months, the students will be debarred from appearing Unit Test and Mid-sem Exam. The teachers are to be in constant touch with the parents of students and to inform their parents about the progress of their ward.
